Good evening, everyone.

Attached please find a revised DWO for 11/19/18 and one for today's activities. Please note the DWO for today will cover demobilization for the break and any off-site removal activities that may be required until our return to the site.

The utility strike was repaired within the hour, flow tested for leaks and the repair passed with no issues. Comparable ¾" PVC was used for the repair.

If you have any questions or comments, please advise.

Have an enjoyable Thanksgiving with your families and friends.

Regards,

Don
